

Comment changer la couleur d'une cellule Excel via COM :

Il faut générer les signatures par :

```
/sti /mwr=com /pid Excel.Application:EXCEL_
```

Ensuite ce code :

```
newinstance "EXCEL_APPLICATION", $lh_excel$
```

```
$lh_excel$->set_visible(1)
```

```
$lh_excel$->get_workbooks($lh_workbooks$)
```

```
$lh_workbooks$->add($lh_workbook$, "")
```

```
$lh_range$->get_interior($lh_interior$)
```

```
$lh_interior$->set_colorindex(<color_index_number>)
```
